

You can help support us today by using PWI Swipe! Swipe is a tool that allows you to round up all purchases that you make with your debit or credit card to the nearest dollar. The leftover change (up to 99 cents) is then donated directly to us. Set it up once, and you will be good to go! Here are a few simple steps to get started:

Sign up online to use PWI Swipe

Add your accounts. All transactions made on the cards you've registered will be rounded up to the nearest dollar. Credit cards, debit cards, or bank accounts of your choice can all be added. Once a month, the total amount of change you've raised will be donated to us!

Manage your accounts. You can edit and manage your accounts at any time by downloading the PWI Swipe app. Once you download the app, log in with the user information that you used to set up Swipe online.

For further questions, check out the [PWI Swipe FAQ page here.](#)
